Education

University of Michigan

B.S.E. in Industrial and Operations Engineering

B.S.I. in User Experience Design

- GPA: 3.80 / 4.00

Ann Arbor, MI

May 2024

May 2024

Work Experience

Fiserv

Product Experience & Design Analyst

Berkeley Heights, NJ

June 2024 - present

- Authored detailed product requirements and user stories in Jira for Ask360, an enterprise AI support assistant, including defining what account and case data could be securely surfaced to power accurate, real-time customer responses
- Partnered with engineering, design, and knowledge-platform teams to define and document 40+ conversational AI use cases, edge cases, and acceptance criteria for a financial-services client portal
- Drove requirements gathering for a CRM rebuild, identifying key stakeholders, MVP scope, and dependencies, and consolidated outdated tools to improve efficiency and reduce technology spend
- Led B2B user research across financial institutions, conducting interviews and facilitating monthly user groups, and translated findings into requirements that reduced mean time to resolution and average handle time by 15%

LineLeap

User Experience Design & Research Intern

Remote

May 2023 - June 2024

- Collaborated with product, engineering, and design to scope a new social engagement feature, balancing user needs, business goals, and technical constraints
- Led four pre- and post-launch research rounds, interviewing 55 users and surveying 400+, translating insights into actionable feature requirements
- Built and maintained UX artifacts, including personas, story maps, and empathy maps, to align cross-functional teams around user-centered feature development

Blue Cross Blue Shield of Michigan - IOE 424 Capstone Project

Data Analyst

Remote

Jan 2023 - Apr. 2023

- Analyzed BCBSM and Nexidia AI datasets to identify key drivers of customer satisfaction
- Identified a top bottleneck impacting call resolution rates and delivered actionable recommendations targeting Claims and Preauthorization workflows

University of Michigan Center on Finance, Law, & Policy

Community Tech Worker

Detroit, MI

June 2022 - Dec. 2022

- Partnered with four Detroit small business owners in implementing and managing new technology, including website builders, VOIP phone systems, inventory trackers, email services, and social media management tools
- Presented on Community Tech Worker progress at the 2022 Detroit Digital Inclusion Week to share technology

Additional

- Skills: Product Requirements & User Stories, Jira, Acceptance Criteria, Stakeholder Management, API-Driven Product Design, Backlog Prioritization, SQL, Figma, Power BI, User Research & Usability Testing
- Interests: Running, strength training, baking, and crosswords
